

Tips on How to Sell Items Quickly

- **Don't Overprice** - Shoppers like a good bargain. Your items will be surrounded with other items just as nice as yours, and the best price sells! If you are unsure on how to price them, check our Price Guidelines to get an idea on the items you are selling
- **Hang Clothing Items** - Use hangers to display your clothes. Shoppers like to see, smell, and feel what they are buying so try not to put them in Ziploc bags
- **Wash and Iron Clothing** - Launder and iron your clothing so it smells and looks better on the hanger. Presentation is everything! Ironing could be a pain but you will ultimately make more if you take the time to iron the things that need it
- **Pair Items Together** - Pair items that look good together. Try to pair the same size top and bottom of the same brand. You can even put together an outfit from different brand names as long as they look good together. This is the time where you can be creative, release your inner designer!
- **Organize your Items** - Sort your clothing items by size to help you be consistent in pricing. Clothing sizes under 12 months (newborn, 0-3, 3-6, 6-9, 9-12) do not sell well so try to limit them. If you have too much of those sizes, you can divide and sell them in separate sale events
- **Package Loose Items** - Secure small or loose items together in a Ziploc bag and safety pin or tape the bag to a larger piece of the set. Attach the manual or product description/specification for the toys or other items you selling if they are present. Use a Ziploc bag to secure
- **Spread the Word** - Tell your friends and family about the sale so they can check out your items! The more shoppers, the merrier!
